6.10 STAFF RENEWAL (SRNW)

Overview
The procedures described in this section are for extending a staff limited appointment or renewing a career appointment.

Policy Summary
Career appointments may have ending dates for budgetary purposes only (e.g., in accordance with the ending date of a contract or grant) and thus career appointments are renewed as appropriate.

A limited appointment may be extended beyond the current end date if the incumbent was hired via open recruitment. In exceptional circumstances, a limited non-recruitment may be extended.

If extending a limited appointment may result in an employee being on pay status in excess of 1,000 hours in a rolling calendar year, or extending the limited appointment results in an appointment of 50% time continuously or more and is expected to continue for one year or more, then this is a Limited to Career action. Refer to the Limited to Career section for procedural information.

Extension of a limited appointment may provide the employee with additional benefits and entitlements such as:
- Benefits eligibility—Benefits eligibility may be based upon appointment duration and percent of time.
- Vacation and Sick Leave eligibility—Leave accrual eligibility is based upon appointment duration and percent of time.
- UCRP membership eligibility—UCRP membership is based upon appointment duration and percent of time.

Before You Start
Prior to processing the OEU for a extension/renewal of an appointment, Refer to the SHR Procedures Manual. This will give you guidance to determine the delegations of authority and policy procedure.

Complete the data collection document (SRNW).

Notify the employee of any changes to conditions of employment.

Complete the Benefits Eligibility Level Indicator (BELI) form if there is a change in Benefits eligibility.

Data Entry
You will use the SRNW bundle to enter data for the employee’s renewal/extension. This bundle contains the following functions:
- EAPP (Appointments/Distributions)
- EPER (Personnel- Miscellaneous)

Accessing the SRNW Bundle
1. Log on to the Payroll/Personnel System.
2. At Next Function, type EEDB and press Enter.
3. Type BUND and press Enter to display the Bundle menu.
4. Type SRNW, employee ID number and press Enter.
Stop!
Before you proceed determine which procedure you will follow depending upon the specific action.

Extending the ending date of appointment/distribution only
If you are extending or renewing an appointment and only changing the existing ending date, proceed with these procedures.

Extending the ending dates of appt/dist and changing the percent of time an employee may work.
If you are extending or renewing an appointment and changing the percent of time that the employee works, then forward to page 6.10-6 for procedures.
